OFFICE OF THE MAYOR

May 17, 2014

Holistic Health Day

In the 21st century, maintaining and enjoying good health is far easier than ever. However, many people are unaware of the opportunities that surround them. Therefore the Society to Educate People is hosting the first ever Holistic Health Summit in Fayetteville.

This summit will inform participants and guests how to achieve balance in body, mind, and spirit. In addition, the highly informative program is also a participatory interactive program.

As mayor of the City of Fayetteville and on behalf of City Council and our over 205,000 residents, I am honored to recognize Saturday, May 17, 2014 as **Holistic Health Day**.

Sincerely,

Nat Robertson
Mayor
